Marriage tablets

Our Marriage tablets are based on the original Birth tablet concept. Lowestoft was the only 18th century English porcelain factory to make small tablets commemorating the birth of a child. It is generally believed that the foot of a saucer was used to make the birth tablet, made sometimes for the workers' children.

The tablets had one or two suspension holes, ideal to hang on the cot or display. Approximately 50 tablets were originally made and today they are extremely rare and highly sought after by collectors, fetching over £5000.

Unique and available once more from Lowestoft Porcelain where we have resurrected this delightful custom.

Each tablet is presented in a beautiful silk lined box and comes complete with a Certificate of Authenticity. Lowestoft marriage tablets encapsulate a tradition originating over 200 years ago. A perfect way to celebrate a wedding.

Marriage Tablets: LH / BT / BSK £37.95

How to order - Just provide us with a clear picture of your venue and our artist will create the image on your marriage tablet, also supply us with the wording that you want printed on the reverse side.
